

## سيمنار بقسم النبات للمعيدة / ايمان محمد شبكة

تم عقد جلسة مناقشات بقسم النبات وذلك يوم الاربعاء الموافق ٢٠١٨/٣/٢٨ في تمام الساعة الواحدة للطالبة/ ايمان محمد عبده شبكه المعيدة بالقسم والتي عرضت خلالها موضوع رسالة الماجستير الخاصة بها وخطة العمل وأهداف البحث وأهم النتائج التي توصلت اليها .

وقد أوصى السيد أ.د/أحمد لطفي ونس رئيس القسم بضرورة عقد هذه الجلسات بشكل منتظم أسبوعيا علي أن تكون مفتوحة لتسمح لطلاب البكالوريوس بحضورها والاستفادة منها بهدف تنمية مهارات البحث العلمي لديهم.

### Damietta coastal area

area extends from Giza to Eldein village  
It enjoys typically Mediterranean climate  
and dry in summer and moderate in winter  
and it belongs to the arid province and it is  
id province. (Mashaly et al., 2001)

greatest threats to our environment is Climate  
change has significant continuing impacts on the  
planet around the world. Practices and land-based  
activities need to be modified and adapted to the effects of  
climate change and the conditions at the same time to reduce their  
impacts. Over the coming decades. (El-Nahry and  
B)

The following objectives were used to guide the study:

- Field study to explore the role of women in the development of the bank and to identify the reasons for the slow rate of growth and to identify the reasons for the slow rate of growth.
- Field study to explore the role of women in the development of the bank and to identify the reasons for the slow rate of growth.
