Damietta University

Answer the following questions

Total marks 60]

Question No. (1):

[40 Marks]

The production performance of laying hens during their late laying period is rapidly decreasing; therefore, prolonging the utilization period of laying hens in the late laying period is of great significance, and reproductive aging has received increasing attention in recent years. Write a detailed report to submit to the concerned authority.

Question No. (2):

[20 Marks]

Write short notes on :

- 1. Biosecurity applications in layer hen's farms. (10 Marks)**
- 2. Mule duck. (10 Marks)**

Best Wishes.....

Prof. Dr. Khaleel Hassan El-Kholy
