

International Conference

Smart Cities

Challenges & Opportunities

February 27 - March 1, 2023

COMPETITION

Be one of those who build our
SMART WORLD!

Be a part of the **CHANGE**
and showcase your innovation.
Here, you can translate your
dreams into real achievements
that may be attractive to the
current and future market!

Join our **THEMATIC COMPETITION** to discover your latent capabilities and put yourself in a practical experience to apply creative problem solving (CPS). Themes of the competition will follow the successful smart cities key pillars that will be dug into through our conference:

- Building systems
- City infrastructure
- Transportation and mobility
- Green built environment
- City e-management
- ICT solutions

Under the auspice of:

Ain Shams University
Faculty of Engineering

Armed Forces Engineering Authority
