

Level 2 Semester 3, Block 5
Week 1 (From 2nd Oct To 6th Oct) GIT (GI312)

	09:00 - 10:00	10:00 - 11:00	11:00 - 12:00	12:- 12:30	12:30 - 1:30	1:30 - 2:30
Sunday 2/10/2022	Semester 3	Medicine 1	Anatomy 1	BREAK	G 1: Anatomy practical 1: Anatomy of the gastrointestinal tract *	
	Orientation with block 5	Introduction to gastrointestinal disorders	Anatomy of the mouth cavity, the palate		G 2: Histology practical 1: Histology of the salivary glands **	
					G 3: Introduction to abdominal examination ***	
					G 4: -	
Monday 3/10/2022	Physiology 1	Physiology 2	Anatomy 2		G 1: -	
	Neuro-hormonal control of GIT	Physiology of the mastication, salivation and deglutition.	Anatomy of the gastrointestinal tract 1		G 2: Anatomy practical 1: Anatomy of the gastrointestinal tract	
					G 3: Histology practical 1: Histology of the salivary glands	
					G 4: Introduction to abdominal examination	
Tuesday 4/10/2022	Histology 1	Physiology 3	Anatomy 3		G 1: Introduction to abdominal examination	
	Histology of the lip, tongue and esophagus and stomach	Regulation of Gastrointestinal Motility.	Anatomy of the gastrointestinal tract 2		G 2: -	
					G 3: Anatomy practical 1: Anatomy of the gastrointestinal tract	
					G 4: Histology practical 1: Histology of the salivary glands	
Wednesday 5/10/2022	Histology 2	Microbiology 1	Anatomy 4		G 1: Histology practical 1: Histology of the salivary glands	
	Histology of the small& large intestine	Viral infections of the GIT	Anatomy of the liver, gall bladder, spleen and Porto-systemic anastomosis.		G 2: Introduction to abdominal examination	
					G 3: -	
					G 4: Anatomy practical 1: Anatomy of the gastrointestinal tract	
Thursday 6/10/2022	Vacation				Vacation	

* In the lecture hall then Anatomy labs of the 2nd floor. ** In class 309 then the histology and pathology labs in the 4th floor of administrative building. *** In skill labs of the 2nd floor.

Level 2 Semester 3, Block 6
Week 1 (From 20th Nov To 24th NOV) MSK (MS311)

	09:00 - 10:00	10:00 - 11:00	11:00 - 12:00	12:- 12:30	12:30 - 1:30	1:30 - 2:30	
Sunday 20/11/2022	Anatomy 1	Medicine 1	Histology 1	BREAK	G 1: Anatomy practical 1: *		
	Development of the vertebral column and limbs	Musculoskeletal symptomatology and investigations	Histological structure of bone		G 2: Pharmacology practical: Case discussion of gout and rheumatoid arthritis ***		
Monday 21/11/2022	Anatomy 2	Physiology 1	Parasitology 1		G 3:-		
	Muscles of the pectoral girdle, shoulder and arm	Factors influence muscle contraction	Trichinosis / Muscular cysticercosis and hydatid diseases		G 4: -		
Tuesday 22/11/2022					G 1: -		
					G 2: Anatomy practical 1:		
Wednesday 23/11/2022	Histology 2	Anatomy 3	Anatomy 4		G 3: Pharmacology practical: Case discussion of gout and rheumatoid arthritis		
	Histological structure of cartilage	Muscles of the forearm and hand	Nerves of the upper limb		G 4:		
Thursday 24/11/2022	Physiology 2	Histology 3	Pathology 1				
	Summation of muscle contractions	Histological structure of the skin	Osteomyelitis.		G 1: -		
					G 2: -		
					G 3: -		
					G 4: Anatomy practical 1:
