## Objectives and Axes of the conference

The conference aims to identify the problems, which the surrounding environment suffers from, exchanging discussion to suggest the possible solutions for environmental conservation and reach sustainable development. This is to be done through the following axes:

- Water quality and drinking water and its health impact.
- Climate change and biodiversity.
- Nanotechnology applications.
- Green technology.
- Fish farming and environment .
- Safety and environmental professional health.
- Water resources and maximizing their utilization.
- Environmental legislations, nature protection and bio-conservation.
- Environmental monitoring systems.
- Environmental friendly chemistry.
- Food contamination and its environmental and healthy impact.
- New and renewable energy sources.
- Basic sciences and their role in serving the environment and sustainable development.

## The 6<sup>th</sup> International Environmental Conference Basic Sciences and Prospects for Sustainable Development

**5 - 6 April 2020**

**New Damietta - Ras El-Bar**

**Under the Auspices of**

**Prof. Dr. El Sayed M. Dadour**

President of Damietta University

**Prof. Dr. Abdul-Hamid A. Khedr**

Vice President for

Community Service Affairs and Environmental Development

**Prof. Dr. Hemdan R. Atia**

Vice President for

Postgraduate Studies and Research

**Prof. Dr. Wael F. El-Taibany**

Dean of Faculty

President of the Conference

**Prof. Dr. Kadry A. El-Bakry**

Vice Dean for Postgraduate Studies and Research

Rapporteur of the Conference

**Prof. Dr Ahmad M. Tarabia**

Vice Dean for Community Service Affairs

and Environmental Development

Secretary General of the Conference
